NJI-7400

40G	10M	4 × 10G
THROUGHPUT	SESSIONS	PORTS

Overview

The Navijin NJI-7400 (IPS, 40 Gbps) is part of the Navijin Network Security family. High-performance IPS for data centers and large campus edges. Inline intrusion detection and prevention appliances. It is supplied with warranty, local RMA and technical support through Navijin's Dubai hub and authorised partners.

Key Features

- Inline intrusion detection and prevention with real-time signature updates
- Application identification for 4,000+ applications covering over 95% of traffic
- Antivirus with heuristic detection of unknown threats
- Protection against floods, scans, worms and protocol anomalies
- Transparent, inline and monitor (bypass) deployment modes
- Hardware bypass keeps traffic flowing if the appliance fails

Specifications

Interfaces	4 × 10G SFP+, 12 × GE SFP, 12 × GE RJ45, 2 bypass pairs, 1 × USB
Throughput	40 Gbps
Concurrent sessions	10 million
Power	Built-in dual AC, max 300 W

Dimensions	440 × 415 × 44 mm
Weight	6.5 kg
Operating temp.	0 – 50 °C

More features

Also included

- Detailed attack logs, reports and central management

Warranty & support Local RMA and technical support through our regional hub in Dubai and our authorized partners. Certificates and project pricing on request. **navijin.com · sales@navijin.com**
